Re: Field Area Calculation - Island 104A (Shawanaga Island), in front of the Geographic Township of Harrison, now Township of the Archipelago, District of Parry Sound - PIN 52094-0089 - 1 A104 Island

Dear Mr. Hodgson:

Pursuant to your instructions provided this firm, I confirm completion of field and office involvement essential to provide you with an area calculation of 10.74 ha \pm (26.5 acres \pm) above Elevation Contour 176.44 metres CGVD28 of the above-mentioned lands.

During the course of survey, information was obtained from historical records within our office, as well as title documentation held in the local Land Registry Office.

During the course of field survey, measurements were observed and recorded to Elevation Contour 176.44 metres CGVD28 being the "High Water Mark" of the Georgian Bay as per the Township of The Archipelago Comprehensive Zoning By-Law A2000-07 definition to assist in the calculation of the regulated area.

Elevations are geodetic derived from Ministry of Natural Resources and Forestry Benchmark No. PASO1/1960 located in the top of the concrete wharf (Parry Sound Dock) on the North Wharf 0.62m east of the Gauge house having an elevation of 177.92 metres CGVD28.

It is my understanding that a Sketch is not necessary at this time. Please advise should you require one.

On the premise that our involvement in this portion of your project has been finalized, I respectfully enclose our invoice 1002128 for services rendered on your behalf to date. I trust you will find the enclosed information satisfactory. Should you have any questions or require further assistance, please do not hesitate to contact this office. Thank you for directing this file to our attention. It has been a pleasure working with you.

Yours truly,

Nancy Harris-Herr
Ontario Land Surveyor
NHH/nhh
